

Publications

revised 9/4/2010

- W. Sun, E. Song, P. C. Grabow and D. M. Simmonds, "Toward an Integrated Tool Environment for Static Analysis of UML Class and Sequence Models," *Journal of Universal Computer Science (Online)*, 2010.
- W. Sun, E. Song, P. C. Grabow and D. M. Simmonds, "XMI2USE: A tool for transforming XMI to USE specifications," in *5th Int'l. Workshop on Foundations and Practices of UML at 28th Int'l. Conf. on Conceptual Modeling*, Gramado, Brazil, 2009.
- N. V. Roberts, E. Song and P. C. Grabow, "Model interfaces for two-way obliviousness," in *ACM Symposium on Applied Computing (SAC)*, Honolulu, HI, 2009.
- P. C. Grabow, "An Alternative to Instrumentalism: Technology as a Form of Transcendence," *The International Journal of Technology, Knowledge, and Society*, vol. 4, pp. 197-202, 2008.
- P. C. Grabow, J. Todoroff and M. Lan, "Using ESCRO3 to specify, simulate, and implement real-time systems," in *IATED Software Engineering and Applications*, Anaheim, CA, 2001.
- P. Grabow, "Position statement: Testing complex systems," in *IEEE COMPSAC'98*, Vienna, Austria, 1998, pp. 24.
- P. C. Grabow, "La technique: An area of discourse for computers in society," in *Social and Ethical Effects of the Computer Revolution*, J. Kizza, Ed. McFarland & Company, 1996, pp. 298-312.
- P. C. Grabow and L. Liu, "Automatic generation of C++ code from an ESCRO2 specification," in *IEEE COMPSAC'95*, Dallas, TX, 1995, pp. 18-24.
- W. A. Booth and P. C. Grabow, "Building blocks for a transputer-based real-time system," in *Transputer Research and Applications 7*, Athens, GA, 1994, pp. 330-345.
- P. C. Grabow, "Context for 'the cultural impact of the computer'," in *ACM Conference on Ethics in the Computer Age*, Gatlinburg, Tennessee, United States, 1994, pp. 40-45.
- P. Gupta and P. C. Grabow, "Onion: A methodology for developing data-dominant systems from building blocks," in *ACM TRI-Ada '94: Proceedings of the Conference on TRI-Ada '94*, Baltimore, Maryland, United States, 1994, pp. 361-372.
- P. C. Grabow, M. C. Hwang, D. L. Decker, D. R. Stephens and L. Liu, "Design and implementation of a real-time control system using ESCRO2 and C++," in *ASME Symposium on Computers in Engineering*, Houston, TX, 1993.
- P. Grabow and W. Noble, "Reusable software concepts and software development methodologies," in *AIAA/ACM/NASA/IEEE Computers in Aerospace V*, Long Beach, CA, 1985, pp. 140-147.
- P. Grabow, W. Noble, C. Huang and J. Winchester, "Reusable software concepts and software development methodologies," in *National Conference on Software Reusability and Maintainability*, National Institute of Software Quality and Productivity, Washington, D.C., 1986.
- P. C. Grabow, W. B. Noble and C. Huang, *Reusable Software Implementation Technology Reviews*. Fullerton, CA: Hughes Aircraft Company for Naval Ocean Systems Center, San Diego, CA, 1984.
- S. S. Yau, W. P. Weems and P. C. Grabow, "A binary relation representation for program models," in *IEEE COMPSAC'82*, Chicago, IL, 1982.

- S. S. Yau and P. C. Grabow, "A Model for Representing Programs Using Hierarchical Graphs," *IEEE Trans. Software Eng.*, vol. 7, pp. 556-574, 1981.
- P. Grabow and S. S. Yau, "A model for representing the control flow and data flow of program modules," in *IEEE COMPSAC'80*, Chicago, IL, 1980.

Presentations

- P. C. Grabow, "An alternative to an instrumentalist view of technology," in *National Faculty Leadership Conference*, Washington, D.C., 2006.
- P. C. Grabow, "Thoughts on Freedom: in response to *Excellence without a Soul*", upon the visit of Dr. Lewis, former Dean of Harvard College, to Baylor University, Oct 23, 2006.
- R. Huang, P. C. Grabow and S. R. Eisenbarth, "A software design method for Hardware/Software co-design," in *Advanced Software Technology in the 21st Century*, Santa Clara, CA, 1998.

Reports

- P. C. Grabow, P. Maurer, D. Sturgill, "A Software Engineering Curriculum", Computer Science Department, Baylor University, 19 pages, Sep 2006.
- P. C. Grabow, Ben Allen, "Technology Infrastructure for Distance-Learning Versions of EGR 1301 and EGR 1302", School of Engineering and Computer Science, Baylor University, 39 pages, Aug 2005.
