Seminar

**"You're not in
Kansas anymore:
Baylor
Engineering in
China 2009"**

**Richard W.
Campbell**
Lecturer in Mechanical
Engineering, Baylor
University

Wednesday, October 7, 2009, 12:20 PM, 312 Rogers Bldg.

Abstract: The accomplishments and activities of Baylor engineering and business students participating in the i5 program in China in 2009. Some observations on why China is important to the West, what students can gain from the experience, how we are different and how that poses challenges as Christians.
