Call for Papers – Extended Deadline: 10 February 2014

Background:
The mission of the Forum is (1) to encourage reflection on engineering, engineers, and technology by philosophers, engineers, social scientists, and scholars in related fields, and (2) to build bridges between existing organizations of philosophers, engineers, social scientists, and scholars in related fields. This third meeting of fPET follows fPET-2012, hosted by the University of the Chinese Academy of Sciences in Beijing; and fPET-2010, the inaugural meeting, held in Golden, Colorado at the Colorado School of Mines.

Abstracts (500-750 words) are invited for submission in one of four tracks:

Track One: Philosophy of engineering and technology
Track Two: Engineering ethics
Track Three: Reflections of practitioners
Track Four: Engineering studies/interdisciplinary topics on engineering

All submissions will be blind-reviewed by the program committee. Those accepted for presentation at fPET-2014 will be scheduled for 30-minute talks (inclusive of Q&A). All abstracts accepted for fPET-2014 will be published online at the Forum website and in a printed volume available at the meeting. We will seek publication of selected papers from the conference in a volume with a well-known publishing house.

Instructions: Abstracts may be submitted electronically at https://ssl.linklings.net/conferences/fpet/. Notification of acceptances will be sent by 1 March 2014.
